I. Read the passage and answer.

SPRINGTIME TADPOLES

Every spring season Rohan and his brother Mohit go to the pond to look for tadpoles*. They love to catch them so that they can turn into frogs. This spring, when Rohan and Mohit go to the pond to catch tadpoles, they see a painted picture of a turtle sitting on a log and enjoying the sun. “Look at that cool turtle,” says Mohit. “Should we try to catch it?” Rohan asks. Mohit says, “I like catching tadpoles better.” Rohan agrees with Mohit.

They fill their buckets with tadpoles and go home. When they get there, they empty the buckets into a big, wide tub. They cover the tub with a screen so that other animals can't get to the tadpoles. They keep the tub in the shade so that the water does not get too hot.

Rohan and Mohit go to the pond every day to bring fresh water and leaves from the bottom of the pond for the tadpoles to eat. After six weeks, the tadpoles grow into frogs. Then Rohan and Mohit take them back to the pond so that they can live happily ever after.

*Tadpoles become frogs after a short period of time.
